# The Power of Experience

Since **2003**

**The  
Technology  
Solutions for  
Environment**

## Really Incineration Required?

### Let's Think for Recycle First...

"Is incineration of your waste required?" Incineration is a process which needs fuel for burning of waste and generates Carbon which is not at all advisable in the current situation of World Environment. In many cases, The Waste for one Industry may be a useful product for other. There may be possibilities of Waste to Energy System also. So, think twice before deciding for incineration.

But for any requirement of Waste disposal Equipment or Waste to Energy Equipment, You are at correct Place. "Global Engi-Tech Pvt. Ltd."
